

CONNECT YOUR DEXCOM ACCOUNT VIA THE GLOOKO® WEB APP

TO CONNECT YOUR DEXCOM ACCOUNT:

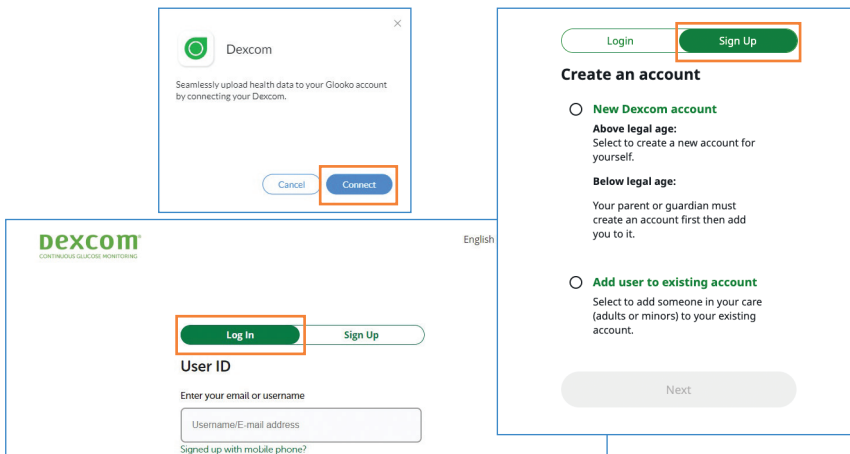

1. Go to my.glooko.com in your web browser, and log into your Glooko® account.
2. Click the drop-down menu at the top-right of your Glooko® web app, then select **Settings**.

3. Scroll down to the Apps & Devices section and click **Connect Dexcom Account**.

4. Enter your Dexcom **Username** and **Password**, then click **Login**.
 - If you do not have an account, click **Sign Up** to create a new account.

CONNECT YOUR DEXCOM ACCOUNT VIA THE GLOOKO® WEB APP

5. Follow the on-screen prompts to create and/or connect your account. A confirmation page will display indicating that your Dexcom account is now connected.

- **Agree** to share your Glooko® data with Dexcom (optional).

The image shows two overlapping windows. The background window is titled "Sharing Data with Dexcom" and contains the following text: "Sharing Glooko Data with Dexcom helps Dexcom provide support if needed. If you agree, all CGM, glucose, and connected device data (insulin pump, BG meter, health and fitness trackers) will be accessible by Dexcom." At the bottom right of this window are two buttons: "Disagree" and "Agree". The "Agree" button is highlighted with an orange border. In the foreground, a smaller "Success" notification window is open. It features a green checkmark icon and the text: "Success", "You are connected to Dexcom. Now you have your health data automatically synchronised with Glooko at all times.", and "Glooko's Privacy Notice governs use of your health data shared from your Dexcom account." At the bottom right of the "Success" window is a "Done" button, also highlighted with an orange border.

6. Click **Done** to return to your Settings page.

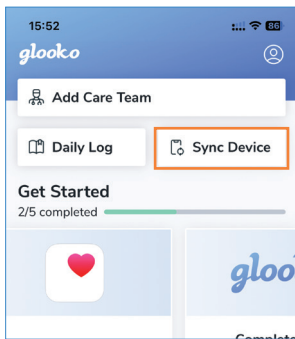

7. Your Dexcom account will display as "**Connected**" in the Apps & Devices section.

The image shows a screenshot of the "Apps & Devices" settings page. The page title is "Apps & Devices". Below the title, there is a grid of 12 connection options, each with an icon and a text label. The options are: "Connect Apps & Devices", "Upload Omnipod® PDM", "Get Glooko Uploader", "Connect iGlucose Devices", "Upload Abbott Data", "Connect GlucoMen Day", "Connect Menarini GlucoLog Web", "Dexcom: Connected", "Connect Eversense Account", "Connect Fitbit", "Connect Garmin Connect", and "Connect Strava". The "Dexcom: Connected" option is highlighted with an orange border, indicating that the connection is successful.

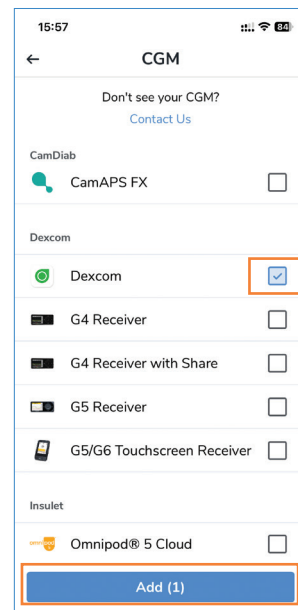

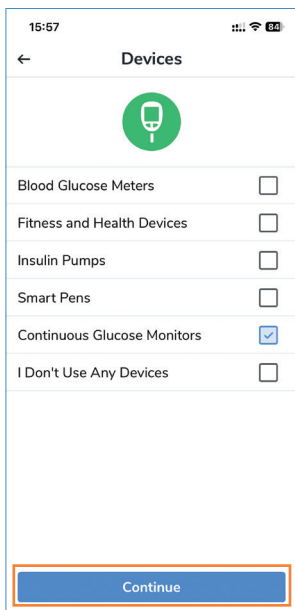

CONNECT YOUR DEXCOM ACCOUNT VIA THE GLOOKO® MOBILE APP

TO CONNECT YOUR DEXCOM ACCOUNT:

1. Open the Glooko® app on your mobile device.
2. Tap Sync at the top of the screen.
3. Tap **Add new device**.

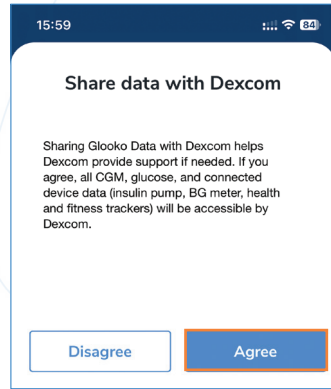

4. Tap to place a **checkmark** (✓) beside **Continuous Glucose Monitor**, then tap **Continue**.
5. Tap to place a **checkmark** (✓) beside **Dexcom Account**, then tap **Add**.

CONNECT YOUR DEXCOM ACCOUNT VIA THE GLOOKO® MOBILE APP

6. Enter your Dexcom **Username** and **Password**, then tap **Login**.
 - If you do not have an account, tap **Sign Up** to create a new account
7. **Agree** to share your Glooko® data with Dexcom (optional).

8. Once your Dexcom account is connected, it will display as **“Connected”** on your Sync screen.

IMPORTANT NOTE: If you have a Dexcom account, you can set up your Glooko® account to receive data (with a 3-hour delay) from Dexcom once every four (4) hours.

NOTE: Glooko® is able to receive Dexcom G6, G7, ONE and Dexcom ONE+ data via this connection. You only need one connection from Dexcom to Glooko®, so if you have Apple Health active, please disconnect Glooko® from Apple Health before connecting your Dexcom account.
