# Dexcom Clarity (receiver)

# Data sharing with healthcare professionals[*]

Your healthcare provider must provide you with the clinic code to start sharing data. Follow the instructions and give the clinic permission to access your data[1].

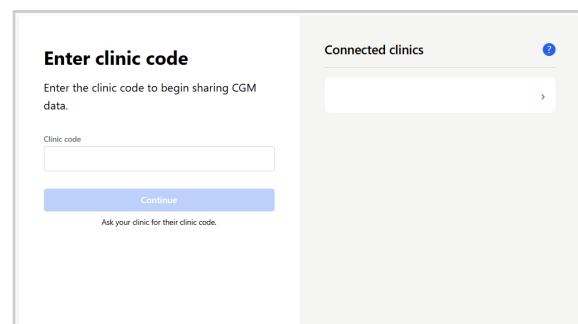

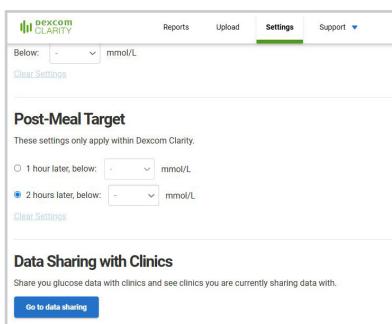

Go to **Settings** and scroll down to **Data Sharing with Clinics**, then click on **Go to data sharing**

Ask the clinic code from the healthcare provider and enter it.

Visit Dexcom Clarity at: **clarity.dexcom.eu** to upload the glucose data from your receiver to your Clarity account, so you can track your progress and share data with your healthcare provider.

**Is your healthcare provider going to do this for you?**
Take the receiver to the appointment. The healthcare provider can also read the receiver at the healthcare facility.

Select **Dexcom Clarity for home users** and log in with an existing Dexcom-account or create a new account.

**1** Go to **upload**.

**2** Click on **download** and follow the on-screen instructions to install the software.

**Connect** your receiver to your computer to upload glucose data from your receiver.
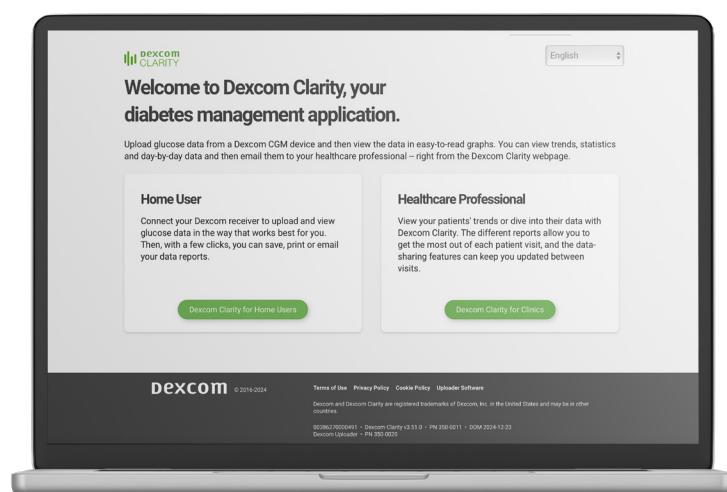

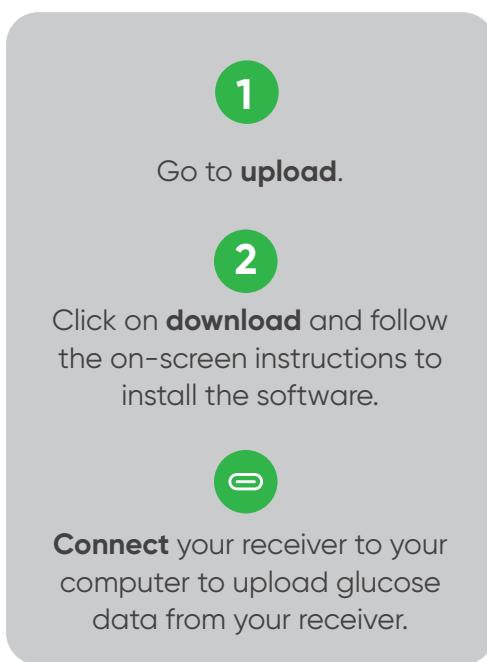

For future uploads, you only need to connect your receiver to your computer.

[*] Patient must give consent to share their data with their healthcare provider.
[1] An internet connection is required for patients to send their glucose data to Dexcom Clarity via: clarity.dexcom.eu.
